

YOUR GOD JOB BY DR. TERRANCE WADE

“And we know that all things work together for good to them that love God, to them who are the called according to his purpose.”
Romans 8:28

I believe that our life experiences, and those of other believers, occur for a very specific reason. Our Father is honing and refining us for a job that He has designated each of us to do (your GOD JOB.) We know that Jesus commanded the disciples and us, also as disciples, to go forth out into the world and make more disciples through evangelism. That is our primary job and I believe our GOD JOB is a refinement of that evangelism. Each of the mountains, valleys, deserts and oceans that we have crossed in our lives prepare us to do that GOD JOB. In my life, the Lord has blessed me with the spiritual gifts of vision, discernment and healing touch. These gifts have come to bear in my GOD JOB as a wellness doctor, but the path that I've travelled to reach this point has been full of caves, cliffs and broken bridges. At a very young age, I was diagnosed with a hip disorder that has, and still, produces great pain. This life-long experience has allowed me to display compassion for those who are suffering. He has had me deal with, from an early age, the emotional pain of the death of many friends. As a student in a school for disabled children, not a week went by without the passing of a fellow student. As a lifeguard, there was a near death experience when I drowned and was resuscitated on the beach: Jesus sent me back here. The Lord prepared me for a position as an entrepreneur by taking me to a small city college with a new small business instructor from Harvard Business School. From there He exposed me to exercise physiology (the concept of exercise) as a long-distance bicyclist and bike shop operator. College was interrupted when, while working as a construction carpenter, I fell 14 feet onto a concrete slab, severely injuring my lower back

and neck, dislocating my wrists and damaging my hands. My first exposure to alternative health care occurred when a practitioner was able to restore blood flow to my wrists and hands for the first time in six weeks. This inspired me to move forward, realizing the power that made the body, heals the body and I returned to college as a pre-med major. I also received a peer counseling certification from the County of Santa Barbara, California which aided me in my ability to truly listen and hear the hearts of the people around me.

My point here is that, just as Paul wrote in Romans, “All things in life do work for the good when we walk with God,” each time we have stubbed a toe or did not consult the Lord and made a poor decision, we hopefully have gained more knowledge and insight in to how Jesus, the Father and the Holy Spirit, operate in our lives. God was always guiding and preparing me for my GOD JOB, just as He is directing and guiding each of us every day. Pray with greater faith that the Father will reveal your GOD JOB to you and that He will continue to propel you towards His goal for your life. May God bless you and keep you close in your walk with Jesus Christ!

Dr. Terrance Wade was raised in the Baptist church from a very young age. He was born again 35 years ago. Since returning to the Lord he has been a God directed healthcare provider and is a member of First Baptist Church, Gilroy.
